Dear Chile:-

Yours of Tuesday came  
just now, and I haste  
to reply. We are up in  
9<sup>th</sup> to get the news that  
they intend to get a new  
Teacher in place of the  
stick they bore now, and  
from all appearances we  
have to believe that you  
are "it". The reason I  
had not given the papers  
to Mr. Jansen was that I  
was considering the point  
of getting them in printed  
form, and was  
just getting about it  
instanter when you letter  
came,

2.

Yes, with Mr H  
& Mr Berman at once,  
I will also see them  
at once this day if I  
can get them.

Mr Huntington is Vice  
of the board. I will  
also get Mr J to  
will to Mr Cox at  
once.

We are to build but  
not the coming summer  
altogether. Hope to make  
a start this summer  
enough to get well under  
way next winter when I  
will have the time to put  
in my personal attention  
& do a lot of work myself  
These things Spring be

3

Could get the plastering  
done & get floors finished  
etc. etc. & maybe get in  
by the time following, Can't  
be positive, exactly.

Hauling up to day for  
the house,

You must stop at  
Summer Jacksons  
in Minn. on your return  
where you will see a dandy  
and then I want you to  
pick up some ideas. See  
Mrs. Mary Jackson & his  
wife, I am corresponding  
with, and I know she is  
nice, "Key nice". They have  
just gone to California and  
I am to write for at  
Pasadena. She sent a  
rough plan of house.

Your letter did  
bring a heap of joy to  
think that you may be  
here next winter!

Robins are here and  
the first is about out  
of the ground, no snow,

Yours  
Papa

Dear Chile:

Yours of Tuesday came just now and I hasten [?] to reply. We are up in g# [?] to get the news that they intend to get a new teacher in place of the stick they have now. And from all appearances we have to believe that you are "it." The reason I had not given the papers to Mrs. Jillsen [Secretary of the Board of Education] was that I was considering the point of getting them in printed pamphlet form and was just setting about it instanter when your letter came.

Yes, write Mr. H & Mr. Brosnan [Superintendent of the Ovid School] at once. I will also see them at once this day if I can get them.

Mr. Huntington is Pres of the board [of Education]. I will also get Mr. J[illson] to write to Mr. Cox at once.

We are to build but not the coming summer altogether. Hope to make a start this summer enough to get well under way next winter — when I will have the time to put in my personal attention & do a lot of work myself.

More towards spring we could get the plastering done & get plans polished to [??] & maybe get in by the June following. Can't be positive, exactly.

[paragraph indecipherable]

You must stop at Sumner Jackson's in Minn on your return where you will see a dandy and where I want you to pick up some ideas [??] Mrs. Mary Jackson, his wife. I am corresponding with and I know she is nice. "[??]". They have just gone to California and I am to write her at Pasadena. She sent a rough plan of house.

Your letter did [??] a heap of joy to think that you may be here next winter.

Robins are here and the frost is about out of the ground. No snow.

[Undecipherable salutation]
