Sir

I don't know whether I am indebted to you or not in the way of writing. I rather think I am, however, as I think Olive was very sick when I received your letter, which prevented me from writing. Olive has been afflicted for three months with a carbuncle on her back, which came very near causing her death. She is now out of danger, and is recovering slowly. The balance of the family well -- notwithstanding. We have very warm weather, but no epidemic yet. The probabilities are that we will escape this year, as it is so late in the season. We are having rain plentifully, which keeps the atmosphere pure, and keeps off disease.

Olive Faulkner, our daughter, has just returned to Jefferson, Texas. She has been with her mother during ...

her illness. I telegraphed for her when
the physician thought her Mother was
dangerously ill. Laura was also at
home.

I recently received a letter from
Elisa Bailey asking me to send her
the proportion due her from her brother's
Estate, as she understood I had got
-ten it all. I disabused her mind &
& informed her who had the property -
Jennie Piniger. Charles' adopted daughter
proved to the Court that she was the
legitimate child of Charles & Nancy &
won the property - which Alfred
Robinson, Nancy's brother was claim-
ing under the will, as being next
of kin, and heir to the property - we
never got anything - nor did we expe-
ct any thing, after I found I could
not break the will, which I believe to
be a forgery - yet, I could not prove it.

Jennie Piniger has turned out
to be a bad woman. She was divorced from
her husband when he was unable to
take care of himself, and married a
man that was boarding in the family.

The is drawing rent from the
property Charles lived on, and lives
in. Another. She expects to get three
thousand Dollars Cash which Nancy
lent to a Mr Porter, but Nancy's
second husband, Capt John Emerson, trans-
ferred the Note to his brother (as it was
drawn in his John Emerson's favor) merely
for form sake, as Emerson was not worth
a Cent when he married Nancy - she
has beaten this man Emerson, and
was in a fair way of getting the
money when I informed Emerson's
lawyer - where the heirs resided. So
he had a lawyer appointed by the
Court to stop payment to Mrs Piniger
I wrote to Charles Augustus
Robinson, of Concord, New Hampshire,
who is one of nine heirs - but he pays
no attention to it. Alfred attempted
to get hold of the property & defraud
these heirs, his brother's children - so
you see I can't send anything to my
sister Elisa Bailey - which would
have afforded me great pleasure to have
done so, as Charles' sisters are entitled
to this property - but this rascally
will, bars them from any participation

I did all I could to prevent Jennie from
accomplishing her designs - She hates me
with a holy hatred - She knows me to be
a formidable enemy - and entirely too
shrewd for her - I should not be surprised
if she had not written to Elisa, saying
I had the property - she did so with the
New Hampshire folks - she wrote them
that I proposed a compromise by dividing
the property - she did this to prevent me
from obtaining power of attorney from
Charles A. Robinson, she succeeded in
her design - she made Robinson think
I was a scoundrel - the result will be
that he will lose the three thousand dollars,
and Jennie will get it, if I had have gotten
the power of attorney I would have prevented,
and she knew it, hence the report, she is a
shrewd unscrupulous woman, backed by
unprincipled lawyers, who are after money
in any way - goodby -
